

Students, don't miss your opportunity to climb with us to the top of Africa!

On February 17th [Busch Gardens Tampa Bay](#) will embark on its first Xpedition to the Roof of Africa, Mt. Kilimanjaro - and you're invited to become virtual, online participants in our expedition party!

Our purpose for braving this rough and rugged landscape is to witness the area's rich array of biodiversity firsthand - and explore the development of a once-in-a lifetime summer experience for future [Busch Garden Campers](#).

In addition to scaling the largest mountain in African, we will also take you on safari across the Serengeti in the search for the "Big Five" - buffalo, elephant, leopard, lion and rhinoceros. Our staff will share this amazing experience through daily blogs - **and students will have the opportunity to pose questions to the Xpedition members about Mt. Kilimanjaro - as well as the many rare and amazing animals on the Serengeti Plain.** So grab your virtual hiking boots and embark on this remarkable journey along with us online!

We hope to be able to offer this amazing opportunity to a group of campers in the very near future! Until then, come along for the virtual **trip of a lifetime** - or join us for camp at [Busch Gardens Tampa Bay](#) this summer where you can experience animals like the ones you will see here each and every day!

One thing is for sure...

Things are going to get WILD with Busch Gardens Education!

To book your [Busch Gardens Tampa Bay](#) summer camp for 2012 - or to be included in future mailing lists about our International Camp Trips - please e-mail us at education@BuschGardens.com or visit us at BuschGardens.org.
